**#444 Star Threaded Inserts**  
**#444 Star Adapter Plugs**

**APPLICATION:** Threaded inserts are cast in concrete and offer a clean and unobtrusive appearance without protrusion beyond the face of the concrete. They permit anchor bolts and eye bolts to be removed and reinstalled as often as required. Material is Zamac Zinc Alloy only.

Adapter Plugs are nailed to the wooden form and the Inserts are threaded onto the plugs. Once the concrete is dry the forms are removed and the plugs are unscrewed exposing the embedded threads.
