

Cell vents are installed in the bottom vertical mortar joint of a brick veneer wall. Cell vents allow moisture to vent from the cavity to the exterior of the building while restricting ingress of insects. There are 3 styles: Polypropylene Cell Vents, Mortar Net™ WeepVent™ Polyester mesh open-weave cell vents, and Louvered vents.

Polypropylene Cell vents are UV resistant and tested in conformance to ASTM D2240, D790B, D638 and D 1238B.

Mortar Net™ WeepVents™ are UV resistant, 50% recycled polyester mesh bonded with a flame-retardant adhesive.

The TMS402 Building Code requires weeps be spaced less than 33" on center.

Standards:

	Style	Catalog Number	Size
	Cell Vent	85-RA	Regular 3/8 x 2-1/2 x 3-3/8 Almond
	Cell Vent	85-RB	Regular 3/8 x 2-1/2 x 3-3/8 Brown
	Cell Vent	85-RC	Regular 3/8 x 2-1/2 x 3-3/8 Clear
	Cell Vent	85-RT	Regular 3/8 x 2-1/2 x 3-3/8 Tan
	Cell Vent	85-BL	Regular 3/8 x 2-1/2 x 3-3/8 Black
	Cell Vent	85-RG	Regular 3/8 x 2-1/2 x 3-3/8 Gray
	WeepVent™	85-MA	2-5/8 x 3-1/2 Almond
	WeepVent™	85-MB	2-5/8 x 3-1/2 Brown
	WeepVent™	85-MBLK	2-5/8 x 3-1/2 Black
	WeepVent™	85-MT	2-5/8 x 3-1/2 Tan
	WeepVent™	85-MG	2-5/8 x 3-1/2 Gray
	WeepVent™	85-MR	2-5/8 x 3-1/2 Red
	WeepVent™	85-MW	2-5/8 x 3-1/2 White
	Louvered	85LSTD	Standard 2-1/2"
	Louvered	85LCSR	CSR 2-3/4"
	Louvered	85LJUM	Jumbo 3-5/8"
